

PRESCRIBED FIRE NOTICE

The Pizzo Group will be conducting a prescribed fire of a natural area within a quarter mile of your location. The Illinois EPA has permitted and approved this burn.

Additionally we have coordinated with the local fire department to ensure the safety of nearby properties. A certified Prescribed Burn Manager supervises every step of the burn process.

The prescribed fire will likely take place during "burn season" which typically lasts from November 1st to April 30th. Prescribed fires usually take place between 9:30am and 5:30pm, often lasting only a few hours.

If you have a severe respiratory issue you may want to make arrangements to leave the area during the prescribed fire.

If you would like a call prior to the burn, please call our Prescribed Fire Hotline at the number below

815-495-5008

Leave a message with your NAME,
COMMUNITY NAME, ADDRESS, PHONE NUMBER,
and a short description of your question or concern
